Dear Itzel:

I would like to schedule a service request to have our Security Radios serviced - currently they have been out service since late last week - perhaps the repeater? Anyways it is extremely important to get these radios up and working immediately. In addition, I would to request that our vehicle light bar be looked at - I understand that the rear flashers are not working. What would be the price to repair the bar or what would be the price for a new one?

Please contact me as soon as possible as we need to have our Security Radio operable.

Thank you

'Lisa Schechter
